STRIKE SITUATION IN CZAR'S EMPIRE

Telegraph Tie up Practically Complete in Russia.

INTERIOR COMMUNICATION STOPS

The Government Is Facing a Serious Crisis—Authorities Are at a Loss to Know What To Do—Another General Strike Likely.

St. Petersburg, Dec. 1.—2:20 p. m.—The crisis continues. The telegraph tie-up throughout Russia is practically complete and the government does not know what is happening in the interior of the empire. Emissaries of the strikers have been sent to Finland to induce their comrades to join in the strike. This would cut off cable communication which remains open for press and government messages, although the central office here is nominally closed.

Much as the government would like to resist it is powerless with the threat of a general political strike next Monday hanging over its head, and the fact that Interior Minister Durnovi will probably be sacrificed to secure the resumption of telegraph communication. At the same time the government is duly conscious that the demands for the re-instatement of the leaders of the telegraphers' union and the dismissal of M. Durnovi are mere pretexts and that its surrender will only serve to encourage the revolutionists to new efforts. These following the tactics in the case of Crenstadt mutineers are certain to take the form of a fight to save the lives of the Sebastopol mutineers for the purpose again proving the proletariat's authority with the army and navy. The Russ declares the situation is such that the government is unable to guarantee that tomorrow the guns of Cronstadt will not bombard the capital.

The Witte government seems utterly unable to find a weapon to fight the passive revolution while it hesitates hoping that the tide will somewhat subdue and permit the realization of the reforms in an orderly way.

Meanwaile the country is threatened with a counter revolution with all the horrors of a Jacquerie (insurrection of peasants), and it becomes more and more apparent that there are only two modes of egress—the government must put the whole country under a dictatorship and martial law or proclaim a ready-made constitution.

Premier Witte refuses to consent to the former, although the court officers and imperial guard are clamoring for it. The advocates of the latter are increasing. M. Souvorin, editor of the Novoe Vremya openly announces this as the only possible hope of rallying the moderate sentiment of the country to active support of the government.

The Associated Press learns that none of the Sebastopol mutineers will be executed.

No further details are obtainable of the circumstances of the arre at Tsarskoe-Selo of soldiers belonging to the imperial guard.

Communication Is Restored.

Washington, Dec. 2.—Telegraphic communication with St. Petersburg has been restored, the state department having received a routine message this morning from Mr. Eddy, the charge.

No Mail Delivered at Warsaw.

Warsaw, Dec. 2—No letters or newspapers are being delivered here. The authorities have informed the telegraph and postal employes that they will be dismissed unless they resume work. The situation is so bad in the Lodz district that many foreign factory owners have paid off their men and closed their works and are handing over the buildings and machinery to the care of the authorities prior to leaving the country.

Finland Telegraphers Strike.

Stockholm, Dec. 2—Advices received here from Haparanda, a seaport Town of Sweden, near the Finnish border says that the telegraphers of Finland have joined the strike of the Russian operators. The Associated Press is informed from London that the officers of the Great Northern Telegraph company in Finland are still working.

POWERS WAITING ON ENGLAND.

They expect Great Britain to Take the First Step Against Turkey.

London, Dec. 2.—While in official circles in London it is admitted that the powers do not expect the sultan to yield, as the result of the occupation of Mitylene, it was stated today that plans for the next step had not been definitely arranged, the other powers awaiting the British proposals.

The foreign office informed the Associated Press that the British government does not know exactly the extent of the coercion which the other powers are willing to employ, but it is certain that none of the powers is willing to resort to actual warfare in order to enforce the demands for the financial control of Macedonia.

This view of the situation makes it quite possible that demonstration by occupation may be postponed indefinitely. The present political situation in the United Kingdom naturally increases the reticence in official circles here, and as Great Britain is taking a lead, the movement of the demonstrating fleet may be delayed for some time pending the decision of the cabinet concerning its resignation or the dissolution of parliament.

The government has received information from Servia, through official sources, that the Macedonia committee has issued a practical untimatum that unless the demonstration of the powers shall be carried to a successful issue, the revolutionaries are prepared to announce that they intend to create a situation which will be certain to result in a war between Turkey and Bulgaria.

YOUNG LADY CAUSE OF FIGHT.

Young Man Objected to Her Going to Theater with Another Man.

Atlanta, Dec. 2.—Because he wanted to escort to the theater Miss Fannie Harris, whose mother has a boarding house at 164½ Peters street, F. W. Anderson, furniture dealer at 378 Marietta street, was shot at and cut by R. E. Love, a horse trader, last night in a room of Mrs. Harris' boarding house.

The affair is in many respects a counterpart of the tragedy which occurred last Saturday night at 135 Spring street, when Dr. O. T. Kenyon, of Dawson, Ga., shot and killed R. E. Dickerson. Dr Kenyon escorted the boarding housekeeper's daughter to the Grand and Dickerson became angry and jealous and tried to kill the doctor.

After he had fired one shot at Anderson last night, Love drew a knife and cut him across the face.

Love says that both Anderson and Duprese attacked him and that he did not fire a shot until he believed that his life was in danger, and he used his knife after he had been struck with a pair of brass knucks.

Love and DuPree were arrested and locked up at the police barracks. Anderson was taken to the Grady hospital, where his wound was dressed. He is painfully but not fatally cut.

Anderson could not make a statement last night on account of the wound in his face.

Love is held on a state charge of shooting at another and for stabbing.

$150,000 Blaze in Pittsburg.

Pittsburg, Dec. 2.—A fire which broke out in the five-story building of the Graff Stove and Range company, totally destroyed that structure and caused a loss of about $150,000. The buildings on either side, occupied by the Standard Manufacturing and Sanitary company, and Shannon Sons wholesale dry goods, were also slightly damaged. Shannan & Sons sustained a heavy loss by water. The cold weather greatly handicapped the firemen.

Railroader Found Murdered.

Norfolk, Va., Dec. 2—Henry Gresham, an employe of the Norfolk and Southern railway, was found murdered at Mundens Point in Princess Anne county yesterday. Magistrate Atwood is conducting an inquest today and the jury returned a verdict that Gresham came to his death by a blow received on the head with a blunt instrument in the hands of some person unknown.

MANY LIVES ARE LOST IN STORM

The Number of Vessels That Were Lost Is Unknown.

PASSENGER TRAIN JUMPS TRACK

The Locomotive Followed by a Baggage Car and Day Coach Left the Track on a Sharp Curve—Remarkable that Others Were Not Killed.

Philadelphia, Dec. 2.—Two men were killed and about a dozen others injured in the wreck of the Philadelphia express on the Central railroad of New Jersey last night in Pan Haven junction about 100 miles north of Philadelphia.

The dead:

Fireman Rupert, of Mauch Chunk, Pennsylvania.

An extra engineer named Detroy, riding home on the locomotive.

The injured:

Howard A. Fuller, Philadelphia; R A. Lindley, Philadelphia; F. E. DeLong Philadelphia; Thomas Goodwin, Philadelphia; Samuel Scaultz, a clergyman of Landsford, Pa.; M. D. Titlow, South Bethlehem; George M. Willis, East Mauch Chunk, engineer of the express train; Charles B. Brady, Landsford Pa.; F. O. Falkey, body contused.

The baggagemaster of the train sustained a fracture of two ribs.

The locomitve left the rails as it struck a sharp curve. The engine, followed by a combination baggage and smoking car, and a day coach, jumped across the northboundk trac and then plunged 20 feet down upon the tracks of the Lehigh Valley railroad, which parallels the Jersey Central railroad at this point. The coupling on the Pullman car, the other car on the train, broke and the Pullman ran down the track some disatnce.

The coaches that went over the embankment were badly wrecked, and it is considered remarkable that none of the passengers were killed.

GOVERNMENT SUES RAILROAD.

Officials of Southern Pacific Served With Notice of Suit.

San Francisco, Dec. 2.—The Southern Pacific officials have been served with notice of suit against them by the government in the United States circuit court of Portland, Ore., to collect penalties for their violation of the safety appliance act passed by congress in 1893 and subsequently amended in 1903. Similar suits have also been brougat against other overland roads. The act in question requides every train to have a sufficient number of cars so equipped with power of train brakes.

Engineer on the locomotive drawing such a train cannot control its speed without requiring brakemen to use the common hand brakes for that purpose. All passenger trains are properly equipped with air brakes. The Southern Pacific nas many of its cars so equipped and as a rule, will not take a car from another road coming in a through train unless it has air brakes.

The suit is, therefore, in the nature of a surprise and is probably the first action of the kind brought in the federal courts on this coast.

England's Queen 61 Years Old.

London, Dec. 2.—Queen Alexandra is 61 years old today and her birthday was celebrated with the usual heartiness throughout the kingdom including artillery salutes, the ringing of church bells and the displays of flags, etc. Congratulations from all parts poured in at Sandringham, where the queen entertained all the children of the estate at tea, personally superintending the proceedings.

He was secretary of the Franklin Caess Club and was a member of the Mercantile Library Chess association and New Orleans Chess club.

TELLS OF CHORUS GIRL'S DEATH

Operation Was Deemed Necessary to Save Susanna Geary's Life.

Boston, Dec. 2—Testimony that William E. Hunt had told her that when any of the patients died he cut up their bodies, was offered today by Mrs. W. Harrison Stanford, of Philadelphia, who was called by the defense in the trial of Dr. Percy D McLeod, in connection with the death of Susanna Geary, the Cambridge chorus girl.

Then Mrs. Sanford declared that Hunt, who has pleaded guilty in the present case as accessory, was known in Philadelphia as Dr. Roberts, and that he had lived in her mother's house for nearly a year. Witness identified a picture of Mrs. Mary A. Dean, who is wanted as the principal in the Geary case as that of the woman who had posed as the wife of Hunt in Philadelphia at a time when the latter was known as Dr. Richards.

Dr. McLeod, the defendant, took the stand in his own behalf. He made a sweeping denial of the charges against him. He said that on the morning of Sept. 14 he was called to the house on Winthrop street, Roxbury, occupied by a woman who he said told here later that he was Dean, to examine a young woman. He told Mrs. Dean that an immediate operation was necessary to have the girl's life. Complying with the request of Mrs. Dean he called Dr. Petee by telephone and secured his assistance. The operation was performed on the girl to save her life, he said.

AFFAIRS IN PHILIPPINES

Congress Will Devote Much Time to Needs of Islands.

Chicago, Dec. 2.—A dispatch to the Tribune from Washington says:

After the house has disposed of the railroad rate bill there will be a great deal of attention paid to affairs in the Philippines. At the last short session it was found impossible to do proper justice to the islands and much legislation which congress should have attended was neglected. There is plenty of time now for careful work and there will be no excuse for either branch of congress if all legislation is given proper consideration. The tariff on articles from the Philippines will have to be modified, as was attempted without success last year. There will also have to be some changes made in the currency system on account of the decreased value of silver, and if congress is in a mood there will be additional legislation, possibly of a paternal character, looking toward the providing of means by which the impecunious Filipino farmer may raise money enough to cultivate land and make a fair start in the world.

Election Day Quiet in Cuba.

Havana, Dec. 2—The weather is lowering today and rain has fallen frequently. Reports received at the palace and the military headquarters indicate that the election everywhere is proceeding quietly. The vote in Havana this morning was small. Only slight interest is taken in the proceedings, except by the regular politicians Robau and one remaining member of the Alquizar insurrectionary band has appeared before the mayor of Mariano, a suburban town, and announced that he desired to be arraigned in court. He was brought to Havana in an automobile, arraigned in court and liberated on bail. It is understood that Robau would not be prosecuted.

Minneapolis, Minn., Dec. 2.—Train No. 108 on the St. Paul, Minneapolis and Omaha, arrived here last night three days behind schedule, having been stalled on the Dakota prairies in a blizzard with a temperature 20 degrees below zero. The train was heavily loaded with passengers, but cars were warm and food was sent the snowbound travelers from the nearest station.

Mussey and his wife, was reported here today by the tug Scranton, which had been towing the Delawanna from New York. The barge went down in a heavy sea last night, about 80 miles east by south off Minot's light. Those lost were Captain John B. Mosey, Mrs. Munsey, Engineer of the barge and the cook of the barge.

Mount Vernon, O., Dec. 2.—The Knox county grand jury reported today, failing to return any indictments against any of the members of the Delta Kappa Epsilon fraternity, or any members of the Kenyon college in connection with the death of Stuart Pierson, who met a tragic death at Gambier while being initiated. The jurors carefully examined all the testimony given at the inquest of Coroner Scarborough and they were of the same opinion as the coroner to the effect that Stuart Pierson was either tied on the tracks or in such position that he could not extricate himself, but the guilty party or parties could not be determined.

SPRING PARK STOCK RETURNED TO HOME

Made a Big Hit at State Fair Which Has Just Closed.

STOCK TOOK FORTY-ONE PRIZES

The Exhibit Was Admired and Appreciated by All Who Saw It—Well Groomed and Well Fed, Carried Away More Prizes Than All Others.

The cattle and live stock exhibit of the Spring Park Stock Farm Company arrived from the State Fair Saturday morning without mishap, and, considering the journey, presented a most favorable appearance. They were clean and well groomed, and looked almost as well as before subjected to fifteen days' confinement in narrow stalls.

Manager Callison of the farm arrived over the Seaboard, and shortly afterwards the consignment of stock reached Gainesville via the Atlantic Coast Line. The stock was unloaded in the lower yards and transferred immediately to the farm, a few miles west of the city.

In speaking of the awarding of premiums for live stock, Manager Callison stated that he felt perfectly satisfied with the decisions of the judge, W. S. Robbins, of Horace, Ind. "Mr. Robbins proved himself to be a thorough judge of stock, competent, fair and impartial," he said, "and nobody should have cause for complaint."

The exhibit of Spring Park Farm was admired and appreciated by all who saw it. The exhibit comprised Hereford and Jersey cattle, Berkshire hogs, Angora goats, Scotch Collie dogs and poultry, and forty-one premiums were awarded as follows: Thirty-four on cattle, four on hogs, one on geese, one on dogs, and one on Angoras.

Manager Callison had his pockets full of premiums Saturday, and his friends were congratulating him upon his success.

MERCURY MAKES WRECKS NOT CURES

Thousands who have had their health ruined by Mercury testify that it makes wrecks instead of cures in the treatment of Contagious Blood Poison. While it may mask the disease in the system for awhile, when the treatment is left off the trouble returns with renewed violence, combined with the disastrous effects of this powerful mineral. Mercury, and Potash, which is also a common treatment for Contagious Blood Poison, eat out the lining of the stomach and bowels, produce chronic dyspepsia, cause the teeth to decay, make spongy, tender gums, affect the bones and muscles, and leave its victims complete physical wrecks. Another effect of this treatment is mercurial Rheumatism, the worst and most hopeless form of this disease. There is but one certain, reliable antidote for this destructive poison, and that is S. S. S. It is the only medicine that is able to go into the blood and cure the disease permanently. S. S. S. does not hide or cover up anything, but so completely drives out the poison that no signs of it are ever seen again. S. S. S. is made entirely of roots, herbs and barks, and while curing Contagious Blood Poison, will drive out the effects of any mineral treatment. We offer a reward of $1,000 for proof that S. S. S. contains a particle of mineral of any kind. Book with instructions for self-treatment and any medical advice wished furnished without charge.

I suffered greatly from Contagious Blood Poison. I consulted physicians who prescribed Mercury. Nothing did me any good—in fact the treatment proved more harmful than beneficial. A friend told me that S. S. S. had certainly cured him, and I immediately commenced its use, and in a short while I could find no trace of the disease. This was two years ago, and I can truthfully say I am entirely cured.

The stock farms of Florida may not be so numerous, but we have as fine cattle and hogs as any State in the Union. Stock is the strong point in our farming industries. Let every farmer bear this in mind.

From present indications it seems that Tammany will not come out of the election in New York in such bad shape as was at first supposed. There are not so many frauds as anticipated, and the bombs have exploded without very much damage.

A Philadelphia tramp who crept into a house where he found a cask of wine and kept drunk for four days, was arrested and sent up for twenty days. He said it was worth more and expressed the opinion that the judge did not appreciate the quality of the wine.

We have been repeatedly told that no "blind tigers" exist where there are licensed saloons. The Press, published in Fort Myers where there are saloons, reports the conviction there in the last circuit court of three blind tigers. No comment needed.—Punta Gorda Herald.

The saving of $125,000 from the amounts paid to the smaller colleges for their maintenance, which the Buckman bill abolished, leaves that amount to be used for the education of our boys and girls in the public schools, which have increased their course of study so that graduates from those that have the twelve grades can enter the University without going to a preparatory school. Our public school graduates can now enter any college in the State on their diploma.

WHY MARION COUNTY WON.

The award of first premium at the State Fair to Marion county, in the competition of collective exhibits, says The Tampa Daily Times, is due to several causes, very prominent among them being the industrial and commercial character of its very systematic display. From the mere point of size and beauty its exhibit in the main building was inferior to several others. But it appealed successfully to the business instincts of the visitors and judges alike. It is the first county among those making a show to undertake a systematic development of its agricultural resources along those lines which are recognized the country over as most promotive and productive of wealth—farm products and live stock.

This is in strict accord with the gospel which The Times has been for years preaching to the people of this State. We have here the foundation for the most prosperous commonwealth in the Union, the climate, soil, productions and everything that is essential to the raising and sale of those farm articles which have the widest and most prominent market. Marion county has affirmed and proved this proposition, and has shown that there are people of intelligence engaged in such production with the most gratifying degree of success.

Florida has hitherto been relying too much upon her attractions rather than her resources, and right here is a difference and distinction which this paper wishes every reader to ponder. People do not and cannot live upon attractions. But upon resources they not only live, but they accumulate surplus wealth and power, and are then able to add as non-remunerative features of their lives such attractions as taste and means dictate. Attractions may not only be displayed, but resources can be exploited to their full exhaustless extent, with such practical results as enrich the people engaged. Our attractions do draw to us many people already fixed. Our resources draw to us the larger number who wish to fix themselves. It need not be stated that the process of fixing is wealth-creating, dispensing benefits to everybody. The enjoyment of attractions merely distributes in much smaller proportion and to much less advantage a wealth that has already been accumulated.

Let the whole State emulate the example of Marion county. Let it be remembered that in the possession of these resources Marion county is not one whit ahead of the balance of us—only in the development and presentation of what may be made out of them. Hereafter the horse and cow and hog and sheep and hen will take precedence in public esteem of the beautiful fruits and flowers of our region. Corn, potatoes, peas, cassava, grass, cabbages, onions—and in short the full list of things to be eaten by people and fed to stock, will take rank in front of the sweeter and more beautiful, but less substantial products of our climate and soil.

Without depreciating in the least the wonderful merits of our fruit trees and vines, it is worth while for us all to take note that a new era has opened for Florida. The pathway to wealth and power has its initial point with us. Let us tread it with sense and resolution and industry, sure to arrive at the goal.

PEOPLE SATISFIED.

There is an effort being made to declare the Buckman bill unconstitutional, but we hope it will not carry. We suppose Lake City is not satisfied with the decision of the Board of Control in placing the State University at Gainesville, but the majority of the people of the State are satisfied and it is time they should be.—Eustis Lake Region.

Up in Wisconsin they are getting so chilly—16 below—that LaFollette is afraid Lieutenant-Governor Davidson will freeze him out at the next election.

The live stock exhibits at the State Fair from Marion and Alachua counties have astonished even the natives and old settlers there from other sections of the State. They can't believe that such stock could be produced in Florida. There were hogs there from those counties that weighed 1,000 pounds each, and horses as fine as ever came from the Blue Grass regions of Kentucky.—Volusia County Record.

SITUATION IN SAN DOMINGO.

Collector of Customs of that Country Home on a Visit.

New York, Dec. 2.—Taking advantage of the holiday to visit his home in Washington, Colonel George B. Colton, comptroller of customs in San Domingo, arrived here yesterday.

To a reporter who met him at the dock, Colonel Colton said:

"My visit here is of no significance. I simply took advantage of a favorable opportunity to visit my home.

"There has been a marked improvement in the internal affairs of the Republic of San Domingo since the United States government of the epublic of San Domingo since the United States government took charge of its finances. Confidence has been restored, the revenues have increasded about 20 per cent and foreign capital is seeking investment in the industries of the island. Under present arrangements we collect the customs, pay 45 per cent to the government of San Domingo and deposit the remainder with the national city bank for the benefit of creditors.

The receivership has been successful and has received the hearty support of the local government, which has has been able to pay its running expenses out of its share of the revenues. Since April the customs receipts have increased steadily at the rate of about $5,000,000 a year.

"No revolutionary movements have developed in the country this year and no cause now exists for an uprising against the party in power."

Grip Quickly Knocked Out.

"Some weeks ago during the severe winter weather both my wife and myself contrated severe colds which speedily developed into the worst kind of la grippe with all it miserable symptoms," says Mr. J. S. Egleston of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip." These tablets promote a healthy action of the bowels, liver and kidneys which is always beneficial when the system is congested by a cold or attack of the grip. For sale by all druggists.

Policy Holders to Organize.

Atlanta, Dec. 2.—Georgia policy holders in the New York Life Insurance company and the Mutual Life of New York, will hold a meeting at the Piedmont hotel, in this city, on December 12 for the purpose of organizing for the protection of their interests in the coming reorganization of these two companies. This meeting has been called by Martin F. Amorous, of Atlanta, a well known business man and a large policy holder in both companies. Mr. Amorous has discussed the situation with other policy holders in these companies with the result that it was considered advisable to take the same steps as those which have been adopted by several other states and which will, no doubt, be generally adopted.

The Requisite of Beauty.

The first requisite of beauty is a clear complexion. Orino Laxative Fruit Syrup clears a sallow, blotched complexion, as it stimulates the liver and bowels, and the eyes become bright and clear. You owe it to your friends to take it if your complexion is bad. Orino Laxative Fruit Syrup does not nauseate or gripe and it is very pleasant to take. Refuse substitutes. J. W. McCollum & Company.

REPUBLICANS IN CONFERENCE.

Representative Tawney Will Be Chairman Appropriation Committee.

Chicago, Dec. 2.—A dispatch to the Tribune from Washington, D. C., says:

Representatives James A. Tawney, of Minnesota, Republican, "whip" of the house, has arrived in Washington for the session and yesterday had a long conference with Speaker-to-be Cannon. The chairmanship of the committee on appropriations is understood to have been considered.

At a Republican caucus, to be held on Saturday, only one important matter outside of the routine business will be considered. That relates to the committee of the house, it having been proposed that Republican representation should be increased on account of the overwhelming majority of the dominant party. This plan is generally approved by the Republican members, although John Sharpe Williams, the minority leader, is understood to have entered a protest against it.

The present officers of the house will be renominated and re-elected.

The Key That Unlocks the Door to Long Living.

The men of eighty-five and ninety years of age are not the rotund well fed, but thin, spare men who live on a slender diet. Be as careful as he will, however, a man past middle age will occasionally eat too much or of some article of food not suited to his constitution, and will need a dose of Chamberlain's Stomach and Liver Tablets to cleanse and invigorate his stomach and regulate his liver and bowels. When this is done there is no reason why the average man should not live to old age. For sale by all druggists.

Price of Silver is Rising.

San Francisco, Cal., Dec. 2.—Silver is jumping up in price. It is now 65 3-4 cents ped ounce. This is the highest prices since 1896. Two months ago the market quotation was 50 cents. Demand is greater than supply, say the brokers, in accounting for the higher price. But they also say that in addition to a legitimate business demand there is also a speculative demand which must be taken into consideration.

Sanitary Work Being Extended.

Panama, Dec. 2.—The sanitary department has extended its work to Chepo, 40 miles away, where recently a few cases of fever occurred among foreigners employed in building the government road. The town has been thoroughly fumigated.

In Mad Chase.

Millions rush in mad chase after health, from one extreme of faddism to another, when, if they could only eat good food, and keep their bowels regular with Dr. King's New Life Pills, their troubles would all pass away. Prompt relief and quick cure for liver and stomach trouble. 25c at all drug stores; guaranteed.

Prince Louis and Horse Show Week.
Gowns and Hats Seen at the Garden.
Fashionable Dogs a Box Feature.
Fur Motor Hats For Pretty Women.

By RENE DEVERAUX.

Glorious autumn weather, the horse show and the august presence of Prince Louis, Prince Alexander and other distinguished guests of the Four Hundred have just given New York fashionables a giddy week of joyous excitement. The whole week was a success. The weather was perfect, the social leaders who entertained in honor of the princes covered themselves with glory—the Garden was never more resplendent, the gowns more gorgeous and, incidentally, the horses were never more splendid. Certainly interest in the horse show does not wane, and, while the well bred woman was perhaps a trifle less conspicuously gowned than formerly, her costumes were marked with a certain smartness frequently marred by overelaboration.

At morning and afternoon sessions a surprising number of chic black gowns were noticeable, some of cloth and many of handsome velvet. On Thursday afternoon Mrs. Neilson, the mother of Mrs. Reginald Vanderbilt, was splendidly gowned in a severely plain black velvet frock, with which she wore a velvet picture hat piled high with a mass of nodding plumes. A conspicuous "accessory" was a tiny skye dog which accompanied her swathed in a black velvet collar held in place by glittering diamond slides. As Mrs. Neilson and her diamond studded terrier swept into one of the Vanderbilt boxes both Reginald and Alfred Vanderbilt were doing "stunts" in the ring, Alfred driving a smart four-in-hand to the infinite delight of the spectators.

One of the leaders of millionairedom in a nearby box was regal in purple and Irish crochet. Her gown was of velvet faultlessly fashioned in princess style. The fullness was confined at the waist line by tiny tucks forming a corselet effect, the bottom of the gown being finished by one large tuck and two small ones. Exceedingly elegant was the deep round yoke of Irish crochet both back and front, outlined with tapering revers of cloth of gold, upon which were embroidered small anchors in tiny dull purple beads. On the inside of the low crush lace collar was a narrow band of cloth of gold. The hat worn with this gown was of purple velvet, upon which were many purple plumes, part of the brim near the front being caught down by a single purple orchid. The high bandeau in the back was a cloud of purple tulle.

VELVET COSTUME, PRINCESS STYLE, SEEN AT THE HORSE SHOW.

Another conspicuous black costume at the Garden on Thursday (on a man this time) was that of Mr. J. Hazen Hyde, possibly taking a turn among the boxes between sessions of court, which he has been attending most punctiliously of late. Mr. Hyde's attire of deep black was in pronounced contrast to the conspicuous waistcoats and red four-in-hands worn by the swagger fellows of his set this season.

There is a noticeable fad among the ultra fashionable for diminutive footmen, and on the boxes of many smart traps these liveried youngsters are comically prominent. In livery exactly matching that of the coachman's these infant servants occupy but small space and are trained to jump from the box agilely and do the needful with all the airs and graces of their elders.

Uncommonly smart were some of the fur motor hats seen on the Central park drives during the week. Headgear for motoring which combines all the necessary attributes seems as yet in a somewhat undeveloped stage. One of the new shapes, charmingly becoming and comfortable, is Colonial in effect, with a hooded piece which may be turned down over the ears, fastening under the chin or caught up over the crown in an envelope effect.

A fascinating young girl at the table of a country club last week wore a mink motor coat with soft white fur collar and a smart fur hat of the above described model of white caracul, the hooded portion framing a wealth of wind blown tresses.

"For seven years," writes Geo. W. Hoffman of Harper, Wash., "I had a bitter battle with chronic stomach and liver trouble, but at last I won, and cured my diseases by the use of Electric Bitters. I unhesitatingly recommend them to all, and don't intend in the future to be without them in the house. They are certainly a wonderful medicine, to have cured such a bad case as mine." Nine Persons Burn to Death.

Mobile, Ala., Dec. 2.—Nine persons occupying a pull boat on Middle river, which is located between Tensaw and Alabama river, and 25 miles above Mobile, met a terrible fate this morning all being burned to death in a fire which destroyed the boat at 1 o'clock. The news of the terrible death of nine men, two of whom were white, was brought to Mobile today by Sidney Wheat, a negro, and the only survivor of ten. The story is heart-rending and tells of the agonizing cries of those who were caught like rates in a trap and burned to death almost before his very eyes.

LaGrippe and Pneumonia.

Pneumonia often follows lagrippe, but never follows the use of Foley's Honey and Tar. It cures lagrippe, coughs and prevents pneumonia and consumption. Ask for Foley's Honey and Tar and refuse any substitute offered. Mr. G. Vacher, 157 Osgood street, Chicago, writes: "My wife had a severe case of lagrippe three years ago and it left her with a terrible cough. She tried a bottle of Foley's Honey and Tar and it gave immediate relief. A 50-cent bottle cured her cough entirely." Refuse substitutes. J. W. McCollum & Company.

Railroad Changes at Nashville.

Nashville, Dec. 2.—The Illinois Central railroad took formal charge of the Tennessee Central from here to Hopkinsville, Ky., this morning and ran its trains out from the latter place on the schedule which has been in force up to this time. A through train from Chicago to Nashville will be put in operation on December 10, and the schedule revised generally. The Southern railway took charge this morning of that part of the Tennessee Central from here to Hadriman to be known as the Nashville division of the Southern

Keep Your Head Clear

And your stomach free from Indigestion if you would be happy with your family and your fellow-man.

The surest thing on earth to get a man's system "out of whack" is heavy, soggy bread, which is caused by several reasons: First, the material may not be good; second, the cooking may be poor. The best flour in the world will make the heaviest bread if improperly mixed or cooked. WE USE THE BEST FLOUR and our "long suit" is knowing how to mix and bake it. Our bread does not cost any more than home-made, and in many instances it is so much more palatable.

A PAIR OF OLD BOOTS

THEIR LINING WAS PRECIOUS AND THEIR OWNER ANXIOUS.

The Odd Manner In Which a Montana Merchant Got His Gold Dust Treasure Through to the East In the Old Days of Stagecoach Travel.

Henry Elling came to Montana in the early sixties. Then greenbacks were practically unknown in Virginia City. Gold dust was the circulating medium, and every counter and bar was equipped with gold scales, and instead of being dollars and cents the reckoning medium was ounces and pennyweights. Every miner had his buckskin pouch instead of a pocketbook, and generally this pouch had several ounces of gold dust in it, for those were the days of plenty in Alder gulch and all other parts of the territory which is now known as Montana.

When his stock of goods was sold out Mr. Elling decided that it would be a good investment if he should make a trip overland to the States, purchase a new stock of goods and continue in the clothing business. He had about $10,000 in the best of gold dust to his credit in the banks then established in Virginia City, and a question which bothered him sorely was how to get this money to civilization without losing it, for road agents often disputed the right of way with the stagecoaches, and they levied frequent tributes on the passengers, sometimes stripping them to the hide. Wells, Fargo & Co. made a practice of shipping gold dust east for the miners, but this was expensive, the ratio for insurance being sometimes as high as 10 per cent on the amount carried. This meant a great deal of money to a man, even in those days, and Mr. Elling thought he could find a way to get his money to Omaha which would beat that scheme all hollow.

After considering the matter in its different phases he finally expressed the money to his own order as far as Salt Lake City, taking passage on the same coach. To Salt Lake City the express rate was not so high, and practically the danger zone of road agents was passed after this point was reached, the Portneuf canyon and Beaver canyon in Idaho and the section along the Beaverhead valley between the Pete Daly ranch and Williams Junction, in what is now Montana, being the most dangerous.

Mr. Elling and his gold dust arrived in Salt Lake City without incident. For some reason the road agents had not learned that the coach carried a great amount of treasure, and no attempt at a holdup was made, though more than one of the passengers breathed hard and had his heart in his mouth when some unexpected stop was made during the dark hours of the night, for the coach traveled night and day and as fast as four or six horses could bowl it along, and it made an average speed of about ten miles an hour.

After a day's rest in Salt Lake City the journey was resumed. Mr. Elling had already secured his gold dust, and as it was strictly against the rules of the company to carry gold in the baggage he was in a quandary for awhile as to the manner in which he could get that gold to Omaha. The express company knew he had the dust and knew he was going on to Omaha, so it was watching him. The morning the coach was hitched up and drove around to the hotel after him he wandered into the back yard of the hotel and spied a pair of boots not too badly worn which some one had discarded.

These gave him an idea. His gold dust was in two packages, and, securing a stout buckskin string, he tied the two boots together by their ears, and, putting a part of the gold into either boot leg, he threw them into the bottom of the coach, with the remark that his boots hurt him and that he was taking the old ones along so that he could change if his feet got to hurting him too badly.

Nobody had a suspicion that there was $10,000 in those old boots, and Mr. Elling kept them under his feet night and day until he reached Omaha. When coaches were changed he generally carried the boots across his arm and, retiring to some convenient room, would actually change his boots, in this manner hoodwinking the express messengers, the driver and every one else as to the mount of money he was carrying with him, and he got a great deal of sympathy from the rest of the passengers on account of the pain he was suffering from his tender feet.—Anaconda Standard.

Doctors Could Not Help Her.

"I had kidney trouble for years," writes Mrs. Raymond Conner of Shelton, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure and the very first dose gave me relief and I am now cured. I cannot say too much for Foley's Kidney Cure." It makes the diseased kidneys sound so they will eliminate the poisons from the blood. Unless they do this good health is impossible. J. W. McCollum & Co.

WHAT IS ELECTRICITY?

Some of the Numerous Theories on the Mysterious Current.

Well, what is it? It is scarcely possible to say. There are theories—many of them. It is evidently something of which we cannot take a part. We cannot cut a piece of it off and subject it to analysis, nor can we pour a little of it into a bottle for future study and contemplation. It is like the wind—its effects can be measured; its force, strength and quantity can now be calculated to a very nice degree. Still, to liken it to the wind, it is a stupendous power, a mighty typhoon, blowing, as it were, without moving, two ways at once along all parts of its path, giving off a halo of magnetism at right angles to that path everywhere.

One of the nicest theories perhaps is the one that considers electricity a "condition" of atoms brought about by chemical action, as in a battery cell, or by what might be called a severe irritation of the magnetic halo, as in a dynamo, and by other means, such as heat and friction.

What this condition is is beyond us. It may be a violent rotation or it may be an equally violent vibration of atoms, but as no man has seen an atom at any time, not even with the most powerful microscope, it is impossible to say. Friction in some form or other is present, as heat is produced before burning or destruction takes place.—Exchange.

Coughing Spell Caused Death.

"Harry Duckwell, aged 25 years, choked to death early yesterday morning at his home in the presence of his wife and child. He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a fit of coughing which continued for some time. His wife sent for a physician, but before he could arrive another coughing spell came on and Duckwell died from suffocation.—St. Louis Globe Democrat, December 1st, 1901." Ballard's Horehound Syrup would have saved him. 25c, 50c and $1. Sold by W. M. Johnson.

The Lights of the Sea.

Some years ago the natives near Bombay gave accounts of a wonderful flaming creature that they declared had been seen sailing through the heavens, but had dropped into the sea and remained there for many years swimming near the shore. After a long search and much inquiry a scientist discovered that this so called celestial monster was a jellyfish of a most remarkable sort. It had tentacles over 300 feet long and an enormous head that glowed like an incandescent light. The tentacles shone with a phosphorescent gleam and lighted up the sea for a long distance. At length one of the creatures washed ashore and was carefully studied by the naturalist. It was supposed that a comet, which had appeared in the heavens and disappeared afterward, was connected in the minds of this imaginative people with the jellyfish. There are scores of phosphorescent creatures in the depths of the ocean, many of which have never been described, some of them being so remarkable that accurate accounts of them would tax the credulity of simple folk.

Failed.

All efforts have failed to find a better remedy for coughs, colds and lung troubles than Foley's Honey and Tar. It stops the cough, heals the lungs and prevents serious results from a cold. J. N. Patterson, Nashua, Iowa, writes: "Last winter I had a bad cold on my lungs and tried at least half a dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." J. W. McCollum & Company.
